## VLJ Aircraft

# TRAINING SOLUTIONS

Frasca offers a complete product line of flight training equipment for Very Light Jet (VLJ) aircraft. Several FTDs for the Mustang and the Phenom aircraft have been delivered. Two Mustang Jet FTDs have been built for the Federal Aviation Administration (FAA) Academy. Phenom jet FTDs are in use by the Finnish Aviation Academy/Finnair (two devices) and Purdue University. These devices are ideal for the new FAA regulation regarding single pilot turbo jet training.

## Features and Options Include:

- Actual cockpit or fiberglass shell
- Frasca TruVision™ visual system. Available with a variety of wrap-around display configurations.
- Actual Garmin G1000 avionics package - a fully integrated avionics system. Garmin Prodigy for Phenom
- TruFeel™ Digital Control Loading & Digital Sound available
- Simplicity™ Instructor Station with intuitive instructor/operator interface.

Cessna Citation Mustang FTD with simulated smoke system
