Beechcraft

TRAINING SOLUTIONS

Frasca has delivered several KingAir FTDs including C90, C90B, C90 GTi, B200, B200GT and B300 as well as a Level C B200 FFS.

Frasca builds a complete range of flight training equipment for Beechcraft aircraft, ranging from Advanced Aviation Training Devices (AATDs) to Flight Training Devices (FTDs) and Full Flight Simulators (FFSs). A device can be built to meet your exact needs based on your training requirements and budget.

Features and Options Include:

- Basic shell, fabricated shell or actual aircraft cockpit dimensions depending on level required
- FAA or EASA qualification or equivalent
- Frasca TruVision™ visual system. Available with a variety of display configurations
- Standard Gauges or G1000 avionics package - fully integrated avionics system.
- Digital control loading
- Simplicity™ - Instructor Station
