

Frasca Reconfigurable Training Device

*With Real Garmin
G1000 NXi Software*

Frasca RTD™

**AFFORDABLE
TRAINING SOLUTIONS**

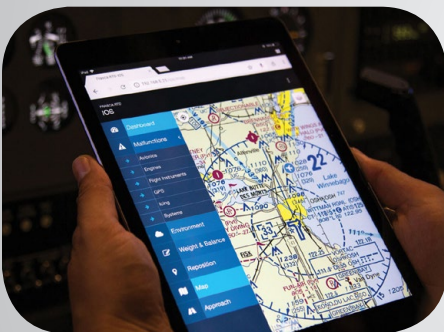

Starting at \$58,000

The RTD is a feature rich Advanced Aviation Training Device (AATD) that combines FRASCA quality with real-world affordability. The RTD can be reconfigured to convert to different aircraft models. Its durable design and easy maintenance makes it a reliable training tool. The RTD is much more than a simulator. It's a solution.

Features and Options Include:

- Reconfigurable to convert to different aircraft models
- **Real Garmin G1000 NXi Software**
- Durable all metal construction
- Single or three channel visual display options
- Browser based Instructor Operating System (IOS) for ease of instruction
- Modular (standardized LRUs)
- Realistic aerodynamics
- Realistic look and feel of actual aircraft panel
- Open or closed cockpit options

Browser Based IOS
