

Frasca Helicopter Training Device

Frasca HTD

TRAINING SOLUTIONS

Affordable, Accurate and Reliable Simulation for Helicopter Training.

Get the features you need from the leader in simulation technology. With over 60 years of simulation experience, Frasca won't let you down. Our Helicopter Training Device (HTD) is built with aerodynamic technology used in our Level D simulators but at an affordable price. Designed for IIMC - inadvertent IMC encounters as well as operational and procedural training, the FRASCA HTD gives you training value with a no nonsense approach. You get the features you need to train your pilots in a reliable and affordable FRASCA device.

Features:

- One aircraft configuration kit - Select from B206, B407, R44, AS350, MD500
- Either 500TXi or analog instrument panel
